University of Richmond

Humana®

This page is left intentionally blank.

Let's talk about the **Humana Group Medicare Advantage Rx** Plan.

Find out more about the Humana Group Medicare Advantage Rx plan – including the services it covers – in this easy-to-use guide.

The benefit information provided is a summary of what we cover and what you pay. It doesn't list every service that we cover or list every limitation or exclusion. For a complete list of services we cover, refer to the "Evidence of Coverage".

Deductible

Pharmacy (Part D) deductible This plan does not have a deductible.

Prescription Drug Benefits

Initial coverage (after you pay your deductible, if applicable)
You pay the following until your total yearly drug costs reach **$4,660**. Total yearly drug costs are the total drug costs paid by both you and our Part D plan.

Tier	Standard Retail Pharmacy	Standard Mail Order
30-day supply		
1 (Generic or Preferred Generic)	**$2** copay	**$2** copay
2 (Preferred Brand)	**$36** copay	**$36** copay
3 (Non-Preferred Drug)	**40%** of the cost	**40%** of the cost
4 (Specialty Tier)	**33%** of the cost	**33%** of the cost
90-day supply		
1 (Generic or Preferred Generic)	**$6** copay	**$0** copay
2 (Preferred Brand)	**$108** copay	**$93** copay
3 (Non-Preferred Drug)	**40%** of the cost	**40%** of the cost
4 (Specialty Tier)	N/A	N/A

There may be generic and brand-name drugs, as well as Medicare-covered drugs, in each of the tiers. To identify commonly prescribed drugs in each tier, see the Prescription Drug Guide/Formulary. To view the most complete and current Drug Guide information online, visit **www.humana.com/SearchResources**, locate Prescription Drug section, select **www.humana.com/MedicareDrugList** link; under Printable drug lists, click Printable Drug lists, select future plan year, select Group Medicare under Plan Type and search for GRP**1**.

Important Message About What You Pay for Vaccines – Our plan covers most Part D vaccines at no cost to you (even if you haven't paid your deductible, if applicable). Call Customer Care for more information.

Important Message About What You Pay for Insulin – You won't pay more than **$35** for a one-month supply of each insulin product covered by our plan, no matter what cost-sharing tier it's on (even if you haven't paid your deductible, if applicable).

ADDITIONAL DRUG COVERAGE

Home Infusion Therapy Drugs	If you take certain types of infusion drugs covered under our Medicare Advantage Prescription Drug plans (MA/PD), you may qualify for this service, which helps you and your doctor manage your care without ongoing hospitalization. In some situations home infusion drugs will be covered based on the tier of the drug at the same cost share amount as listed in the chart above when you have reached a total yearly drug cost of **$4,660**. This service includes coverage for the "Coverage Gap" portion of your plan. Drugs included in this coverage are those that would be used as an alternative to inpatient treatment. Your cost for the medication may be the same as it is before the coverage gap sets in. Your out-of-pocket expenses while using this service apply to your "true out-of-pocket" maximum, which is **$7,400** for 2023.

Coverage Gap

Most Medicare drug plans have a coverage gap (also called the "donut hole"). The coverage gap begins after the total yearly drug cost (including what our plan has paid and what you have paid) reaches **$4,660**. After you enter the coverage gap, you pay a portion of the plan's cost for covered brand name drugs and covered generic drugs until your costs total **$7,400**, which is the end of the coverage gap. Not everyone will enter the coverage gap.

Catastrophic Coverage

After your yearly out-of-pocket drug costs (including drugs purchased through your retail pharmacy and through mail order) reach **$7,400**, you pay the greater of either:

- **$4.15** for generic (including brand drugs treated as generic) and a **$10.35** copay for all other drugs, OR
- **5%** coinsurance

Humana Medicare Employer Plan Abbreviated Formulary

Partial list of covered drugs

PLEASE READ: THIS DOCUMENT CONTAINS INFORMATION ABOUT SOME OF THE DRUGS WE COVER IN THIS PLAN.

1

This abridged formulary was updated on 11/02/2022 and is not a complete list of drugs covered by our plan. For a complete listing, or other questions, please contact Humana Medicare Employer Plan with any questions at the number on the back of your membership card or for TTY users, 711, Monday through Friday, from 8 a.m. - 9 p.m. Eastern time. Our automated phone system is available after hours, weekends, and holidays. Our website is also available 24 hours a day 7 days a week by visiting **Humana.com.**

Important Message About What You Pay for Vaccines – Our plan covers most Part D vaccines at no cost to you, even if your plan has a deductible and you haven't paid it. Call Humana Medicare Employer Plan for more information.

Important Message About What You Pay for Insulin – You won't pay more than $35 for a one-month supply of each insulin product covered by our plan, no matter what cost-sharing tier it's on, even if your plan has a deductible and you haven't paid it.

Instructions for getting information about all covered drugs are inside.

Humana®

Welcome to The Humana Medicare Employer Plan!

Note to existing members: This formulary has changed since last year. Please review this document to make sure that it still contains the drugs you take. When this drug list (formulary) refers to "we," "us", or "our," it means Humana. When it refers to "plan" or "our plan," it means the Humana Medicare Employer Plan. This document includes a partial list of the drugs (formulary) for our plan which is current as of January 1, 2023. For a complete, updated formulary, please contact us on our website at **Humana.com/PlanDocuments** or you can call the number below to request a paper copy. Our contact information, along with the date we last updated the formulary, appears on the front and back cover pages. You must generally use network pharmacies to use your prescription drug benefit. Benefits, formulary, pharmacy network, and/or copayments/coinsurance may change on January 1 of each year, and from time to time during the year.

What is the abridged Humana Medicare Employer formulary?
A formulary is the entire list of covered drugs or medicines selected by the Humana Medicare Employer Plan. The terms formulary and Drug List may be used interchangeably throughout communications regarding changes to your pharmacy benefits. The Humana Medicare Employer Plan worked with a team of doctors and pharmacists to make a formulary that represents the prescription drugs we think you need for a quality treatment program. The Humana Medicare Employer Plan will generally cover the drugs listed in the formulary as long as the drug is medically necessary, the prescription is filled at a Humana Medicare Employer Plan network pharmacy, and other plan rules are followed. For more information on how to fill your medicines, please review your Evidence of Coverage.

This document is a partial formulary, which means it includes only some of the drugs covered by the Humana Medicare Employer Plan. To search the complete list of all prescription drugs Humana covers, you can visit **Humana.com/medicaredruglist**. The Drug List Search tool lets you search for your drug by name or drug type.

If you are thinking about enrolling in a Humana Medicare Employer Plan and need help or a complete list of covered drugs, please contact Group Medicare Customer Care number listed in your enrollment materials. If you are a current member, call the number or visit the website listed in your Annual Notice of Change (ANOC) or Evidence of Coverage (EOC), or call the number on the back of your Humana member identification card. Our live representatives are available from 8 a.m. to 9 p.m. (EST), Monday through Friday. Our automated phone system is available after hours, weekends, and holidays.

Can the formulary change?
Most changes in drug coverage happen on January 1, but we may add or remove drugs on the Drug List during the year, move them to different cost sharing tiers, or add new restrictions. We must follow Medicare rules in making these changes.

Changes that can affect you this year: In the below cases, you will be affected by coverage changes during the year:

- **New generic drugs**. We may immediately remove a brand name drug on our Drug List if we are replacing it with a new generic drug that will appear on the same or lower cost sharing tier and with the same or fewer restrictions. Also, when adding the new generic drug, we may decide to keep the brand name drug on our Drug List, but immediately move it to a different cost sharing tier or add new restrictions. If you are currently taking that brand name drug, we may not tell you in advance before we make that change, but we will later provide you with information about the specific change(s) we have made.
  - If we make such a change, you or your prescriber can ask us to make an exception and continue to cover the brand name drug for you. The notice we provide you will also include information on how to request an exception, and you can also find information in the section below titled "How do I request an exception to the Formulary?"
- **Drugs removed from the market**. If the Food and Drug Administration deems a drug on our formulary to be unsafe or the drug's manufacturer removes the drug from the market, we will immediately remove the drug from our formulary and provide notice to members who take the drug.

- **Other changes**. We may make other changes that affect members currently taking a drug. For instance, we may add a generic drug that is not new to market to replace a brand name drug currently on the formulary or add new restrictions to the brand name drug or move it to a different cost sharing tier or both. Or we may make changes based on new clinical guidelines. If we remove drugs from our formulary, or add prior authorization, quantity limits and/or step therapy restrictions on a drug or move a drug to a higher cost sharing tier, we must notify affected members of the change at least 30 days before the change becomes effective, or at the time the member requests a refill of the drug, at which time the member will receive a 30-day supply of the drug.

We will notify members who are affected by the following changes to the formulary:
- When a drug is removed from the formulary
- When prior authorization, quantity limits, or step-therapy restrictions are added to a drug or made more restrictive
- When a drug is moved to a higher cost sharing tier

If we make these other changes, you or your prescriber can ask us to make an exception and continue to cover the brand name drug for you. The notice we provide you will also include information on how to request an exception, and you can also find information in the section below titled "How do I request an exception to the Formulary?"

Changes that will not affect you if you are currently taking the drug. Generally, if you are taking a drug on our 2023 formulary that was covered at the beginning of the year, we will not discontinue or reduce coverage of the drug during the 2023 coverage year except as described above. This means these drugs will remain available at the same cost sharing and with no new restrictions for those members taking them for the remainder of the coverage year. You will not get direct notice this year about changes that do not affect you. However, on January 1 of the next year, such changes would affect you, and it is important to check the Drug List for the new benefit year for any changes to drugs.

What if you are affected by a Drug List change?
We will notify you by mail at least 30 days before one of these changes happens or we will provide a 30-day refill of the affected medicine with notice of the change.

The enclosed formulary is current as of January 1, 2023. We will update the printed formularies each month and they will be available on **Humana.com/medicaredruglist**.

To get updated information about the drugs that Humana covers, please visit **Humana.com/medicaredruglist.** The Drug List Search tool lets you search for your drug by name or drug type.

How do I use the formulary?
There are two ways to find your drug in the formulary:

Medical condition
The formulary starts on page 10. We have put the drugs into groups depending on the type of medical conditions that they are used to treat. For example, drugs that treat a heart condition are listed under the category "Cardiovascular Agents." If you know what medical condition your drug is used for, look for the category name in the list that begins on page 10. Then look under the category name for your drug. The formulary also lists the Tier and Utilization Management Requirements for each drug (see page 5 for more information on Utilization Management Requirements).

Alphabetical listing
If you are not sure about your drug's group, you should look for your drug in the Index that begins on page 26. The Index is an alphabetical list of all of the drugs included in this document. Both brand-name drugs and generic drugs are listed. Look in the Index to search for your drug. Next to each drug, you will see the page number where you can find coverage information. Turn to the page listed in the Index and find the name of the drug in the first column of the list.

Prescription drugs are grouped into one of four tiers.
The Humana Medicare Employer Plan covers both brand-name drugs and generic drugs. A generic drug is approved by the FDA as having the same active ingredient as the brand-name drug. Generally, generic drugs cost less than brand-name drugs.

- **Tier 1 - Generic or Preferred Generic:** Generic or brand drugs that are available at the lowest cost share for the plan
- **Tier 2 - Preferred Brand:** Generic or brand drugs that the plan offers at a higher cost to you than Tier 1 Generic or Preferred Generic, and at a lower cost to you than Tier 3 Non-Preferred Drug
- **Tier 3 - Non-Preferred Drug:** Generic or brand drugs that the plan offers at a higher cost to you than Tier 2 Preferred Brand drug
- **Tier 4 - Specialty Tier:** Some injectables and other high-cost drugs

How much will I pay for covered drugs?
The Humana Medicare Employer Plan pays part of the costs for your covered drugs and you pay part of the costs, too.

The amount of money you pay depends on:

- Which tier your drug is on
- Whether you fill your prescription at a network pharmacy
- Your current drug payment stage - please read your Evidence of Coverage (EOC) for more information

If you qualified for extra help with your drug costs, your costs may be different from those described above. Please refer to your Evidence of Coverage (EOC) or call Group Medicare Customer Care to find out what your costs are.

Are there any restrictions on my coverage?
Some covered drugs may have additional requirements or limits on coverage. These are called Utilization Management Requirements. These requirements and limits may include:

- **Prior Authorization (PA):** The Humana Medicare Employer Plan requires you to get prior authorization for certain drugs to be covered under your plan. This means that you will need to get approval from the Humana Medicare Employer Plan before you fill your prescriptions. If you do not get approval, the Humana Medicare Employer Plan may not cover the drug.
- **Quantity Limits (QL):** For some drugs, the Humana Medicare Employer Plan limits the amount of the drug that is covered. The Humana Medicare Employer Plan might limit how many refills you can get or how much of a drug you can get each time you fill your prescription. For example, if it is normally considered safe to take only one pill per day for a certain drug, we may limit coverage for your prescription to no more than one pill per day. Some drugs are limited to a 30-day supply regardless of tier placement.
- **Step Therapy (ST):** In some cases, the Humana Medicare Employer Plan requires that you first try certain drugs to treat your medical condition before coverage is available for another drug for that condition. For example, if Drug A and Drug B both treat your medical condition, the Humana Medicare Employer Plan may not cover Drug B unless you try Drug A first. If Drug A does not work for you, the Humana Medicare Employer Plan will then cover Drug B.
- **Part B versus Part D (B vs D):** Some drugs may be covered under Medicare Part B or Part D depending upon the circumstances. Information may need to be submitted to the Humana Medicare Employer Plan that describes the use and the place where you receive and take the drug so a determination can be made.

For drugs that need prior authorization or step therapy, or drugs that fall outside of quantity limits, your health care provider can fax information about your condition and need for those drugs to the Humana Medicare Employer Plan at **1-877-486-2621**. Representatives are available Monday - Friday, 8 a.m. - 8 p.m. (EST).

You can find out if your drug has any additional requirements or limits by looking in the formulary that begins on page 10.

You can also visit **Humana.com/medicaredruglist** to get more information about the restrictions applied to specific covered drugs.

You can ask the Humana Medicare Employer Plan to make an exception to these restrictions or limits. See the section "**How do I request an exception to the formulary?**" on page 6 for information about how to request an exception.

What if my drug is not on the formulary?
If your drug is not included in this list of covered drugs, visit **Humana.com/medicaredruglist** to see if your plan covers your drug. You can also call Group Medicare Customer Care and ask if your drug is covered.

If the Humana Medicare Employer Plan does not cover your drug, you have two options:
- You can ask Group Medicare Customer Care for a list of similar drugs that the Humana Medicare Employer Plan covers. Show the list to your doctor and ask him or her to prescribe a similar drug that is covered by the Humana Medicare Employer Plan.
- You can ask the Humana Medicare Employer Plan to make an exception and cover your drug. See below for information about how to request an exception.

Talk to your health care provider to decide if you should switch to another drug that is covered or if you should request a formulary exception so that it can be considered for coverage.

How do I request an exception to the Humana formulary?
You can ask the Humana Medicare Employer Plan to make an exception to the coverage rules. There are several types of exceptions that you can ask to be made.
- **Formulary exception:** You can request that your drug be covered if it is not on the formulary. If approved, this drug will be covered at a pre-determined cost sharing level, and you would not be able to ask us to provide the drug at a lower cost sharing level.
- **Utilization restriction exception:** You can request coverage restrictions or limits not be applied to your drug. For example, if your drug has a quantity limit, you can ask for the limit not to be applied and to cover more doses of the drug.
- **Tier exception:** You can request a higher level of coverage for your drug. For example, if your drug is usually considered a non-preferred drug, you can request it to be covered as a preferred drug instead. This would lower how much money you must pay for your drug. Please remember a higher level of coverage cannot be requested for the drug if approval was granted to cover a drug that was not on the formulary. *You can ask us to cover a formulary drug at a lower cost-sharing level, unless the drug is on the specialty tier.*

Generally, the Humana Medicare Employer Plan will only approve your request for an exception if the alternative drugs included on the plan's formulary, the lower cost sharing drug, or other restrictions would not be as effective in treating your health condition and/or would cause adverse medical effects.

You should contact us to ask for an initial coverage decision for a formulary, tier, or utilization restriction exception.

When you ask for an exception, you should submit a statement from your health care provider that supports your request. This is called a supporting statement.

Generally, we must make the decision within 72 hours of receiving your health care provider's supporting statement. You can request a fast, or expedited, exception if you or your health care provider thinks your health would seriously suffer if you wait as long as 72 hours for a decision. If your request to expedite is granted, we must give you a decision no later than 24 hours after we receive your health care provider's supporting statement.

Will my plan cover my drugs if they are not on the formulary?
You may take drugs that your plan does not cover. Or you may talk to your provider about taking a different drug that your plan covers, but that drug might have a Utilization Management Requirement, such as a Prior

Authorization or Step Therapy, that keeps you from getting the drug right away. In certain cases, we may cover as much as a 30-day supply of your drug during the first 90 days you are a member of the plan.

Here is what we will do for each of your current Part D drugs that are not on the formulary, or if you have limited ability to get your drugs:

- We will temporarily cover a 30-day supply of your drug unless you have a prescription written for fewer days (in which case we will allow multiple fills to provide up to a total of 30 days of a drug) when you go to a pharmacy.
- There will be no coverage for the drugs after your first 30-day supply, even if you have been a member of the plan for less than 90 days, unless a formulary exception has been approved.

If you are a resident of a long-term care facility and you take Part D drugs that are not on the formulary, we will cover a 31-day supply unless you have a prescription written for fewer days (in which case we will allow multiple fills to provide up to a total of 31 days of a drug) during the first 90 days you are a member of our plan. We will cover a 31-day emergency supply of your drug unless you have a prescription for fewer days (in which we will allow multiple fills to provide up to a total of 31 days of a drug) while you request a formulary exception if:

- You need a drug that is not on the formulary *or*
- You have limited ability to get your drugs *and*
- You are past the first 90 days of membership in the plan

Throughout the plan year, your treatment setting (the place where you receive and take your medicine) may change. These changes include:

- Members who are discharged from a hospital or skilled-nursing facility to a home setting
- Members who are admitted to a hospital or skilled-nursing facility from a home setting
- Members who transfer from one skilled-nursing facility to another and use a different pharmacy
- Members who end their skilled-nursing facility Medicare Part A stay (where payments include all pharmacy charges) and who now need to use their Part D plan benefit
- Members who give up Hospice Status and go back to standard Medicare Part A and B coverage
- Members discharged from chronic psychiatric hospitals with highly individualized drug regimens

For these changes in treatment settings, the Humana Medicare Employer Plan will cover as much as a 31-day temporary supply of a Part D-covered drug when you fill your prescription at a pharmacy. If you change treatment settings multiple times within the same month, you may have to request an exception or prior authorization and receive approval for continued coverage of your drug. The Humana Medicare Employer Plan will review requests for continuation of therapy on a case-by-case basis understanding when you are on a stabilized drug regimen that, if changed, is known to have risks.

Transition extension
The Humana Medicare Employer Plan will consider on a case-by-case basis an extension of the transition period if your exception request or appeal has not been processed by the end of your initial transition period. We will continue to provide necessary drugs to you if your transition period is extended.

A Transition Policy is available on Humana's Medicare website, **Humana.com**, in the same area where the Prescription Drug Guides are displayed.

CenterWell Pharmacy™
You may fill your medicines at any network pharmacy, CenterWell Pharmacy – Humana's mail-delivery pharmacy is one option. To get started or learn more, visit **CenterWellpharmacy.com**. Humana Medicare Employer Plan Formulary

The formulary that begins on the next page provides coverage information about the drugs covered by the Humana Medicare Employer Plan. If you have trouble finding your drug in the list, turn to the Index that begins on page 26.

Remember: This is only a partial list of drugs covered by Humana. If your prescription drug is not listed in this partial formulary, please visit our website at **Humana.com**.

How to read your formulary
The first column of the chart lists categories of medical conditions in alphabetical order. The drug names are then listed in alphabetical order within each category. Brand-name drugs are CAPITALIZED and generic drugs are listed in lower-case italics. Next to the drug name or Utilization Management column, you may see an indicator to tell you about additional coverage information for that drug. You might see the following indicators:
HI - Home Infusion drugs that are covered in the gap
DL - Dispensing Limit; Drugs that may be limited to a 30 day supply, regardless of tier placement.
MO - Drugs that are typically available through mail-order. Please contact your mail-order pharmacy to make sure your drug is available.
LA - Limited Access; The health plan has authorized certain pharmacies to dispense this medicine, as it requires extra handling, doctor coordination or patient education. Please call the number on the back of your ID card for additional information.

The second column lists the tier of the drug. See page 5 for more details on the drug tiers in your plan.

The third column shows the Utilization Management Requirements for the drug. The Humana Medicare Employer Plan may have special requirements for covering that drug. If the column is blank, then there are no utilization requirements for that drug. The supply for each drug is based on benefits and whether your health care provider prescribes a supply for 30, 60, or 90 days. The amount of any quantity limits will also be in this column (Example: "QL - 30 for 30 days" means you can only get 30 doses every 30 days). See page 5 for more information about these requirements.
