Your Blue View Vision network
Blue View Vision offers you one of the largest vision care networks in the industry, with a wide selection of experienced ophthalmologists, optometrists, and opticians. Blue View Vision’s network also includes convenient retail locations, many with evening and weekend hours, including LensCrafters, Target Optical, Sears Optical, JCPenney Optical and most Pearle Vision locations.

Best of all - when you choose to receive care from a Blue View Vision participating provider, you receive full in-network benefits and money-saving discounts.

Out-of-network services
Did we mention that we’re flexible? We offer you the option to receive care outside of the Blue View Vision network. If you choose an out-of-network provider, you will receive an allowance toward services and you pay the rest. In-network benefits and discounts will not apply. When you receive eye care or eyewear from a non-participating provider, you will pay in full at the time of service then file a claim for reimbursement.

Laser vision correction surgery
Glasses or contacts may not be the answer for everyone. That’s why we offer further savings with discounts on refractive surgery.

Pay the discounted amount of $895 per eye for traditional LASIK Laser Vision correction by using TruVision’s national network of over 190 board certified ophthalmologists. For further information regarding this program, go to SpecialOffers@anthem at anthem.com then select Vision Care.

Using your Blue View Vision Plan
The Blue View Vision network is for routine eye care only. If you need medical treatment for your eyes, visit a participating eye care physician from your medical network. Your out-of-pocket expenses related to the vision benefits do not count toward your annual out-of-pocket limit and are never waived, even if your annual out-of-pocket limit is reached.

This benefit overview insert is only one piece of your entire enrollment package. Exclusions and limitations are listed in the enrollment brochure.
