

Use your preventive care benefits

Stay healthy and catch problems
early for easier treatment

Our health plans offer all the preventive care services and immunizations below at no cost to you¹. You won't have to pay anything when you use a doctor, pharmacy, or lab in your plan's network. If you go to doctors or facilities outside your plan, you may have to pay out of pocket.

If you are not sure which exams, tests, or shots are right for you, talk to your doctor.

Preventive care vs. diagnostic care: Knowing the difference

Preventive care helps protect you from getting sick. If your doctor recommends services when you have no symptoms, that's preventive care. **Diagnostic care** is when you have symptoms, and your doctor recommends services to determine what's causing those symptoms.

Adult preventive care

General preventive physical exams, screenings, and tests (all adults):

- Alcohol and drug misuse: related screening and behavioral counseling
- Anxiety, depression, and suicide risk screenings
- Aortic aneurysm screening (for men who have smoked)
- Behavioral counseling to promote a healthy diet and physical activity
- High blood pressure (hypertension) screening
- Bone density test to screen for osteoporosis
- Cholesterol and lipid (fat) levels screening
- Colorectal cancer screenings, including fecal occult blood test, barium enema, flexible sigmoidoscopy (exam of the large intestine), screening colonoscopy and related prep kit, and computed tomography (CT) colonography (as appropriate)²
- Diabetes screening (type 2)³
- Exercise interventions to prevent falls in adults over age 65

- Hepatitis B virus (HBV) screening for people at increased risk of infection
- Hepatitis C virus (HCV) screening
- Height, weight, and body mass index (BMI) measurements
- Human immunodeficiency virus (HIV): screening and counseling
- Interpersonal and domestic violence: screening and counseling
- Lung cancer screening for adults aged 50 to 80 years who have a 20 pack year (packs per day X years of smoking) smoking history and currently smoke or have quit within the past 15 years²
- Obesity: related screening and counseling³
- Sexually transmitted infections: related screening and counseling
- Syphilis infection screening for persons who are at increased risk
- Tobacco use: related screening and behavioral counseling
- Tuberculosis screening

Women's preventive care:

- Breast cancer screenings, including exams, mammograms
- Breastfeeding: primary care intervention to promote breastfeeding support, supplies, and counseling^{4,5,6,7}
- Chlamydia and gonorrhea screening
- Contraceptive (birth control) counseling
- BRCA-Related Cancer: Risk Assessment, Genetic Counseling, and Genetic Testing for women with personal family history of breast, ovarian, tubal, or peritoneal cancer⁸
- Food and Drug Administration (FDA)-approved contraceptive medical services, including sterilization, provided by a doctor
- Human papillomavirus (HPV) screening⁵
- Pelvic exam and Pap test, including screening for cervical cancer
- Pregnancy screenings, including gestational diabetes, hepatitis B, asymptomatic bacteriuria, Rh incompatibility, HIV, healthy weight, preeclampsia, and depression⁵
- Urinary incontinence screening
- Well-woman visits

Immunizations:

- Diphtheria, tetanus, and pertussis (whooping cough)
- Hepatitis A and Hepatitis B
- Human papillomavirus (HPV)
- Influenza (flu)
- Measles, mumps, and rubella (MMR)
- Meningococcal (meningitis)
- Monkeypox and/or smallpox (at risk)
- Pneumococcal (pneumonia)
- Respiratory syncytial virus (RSV)
- Severe acute respiratory syndrome coronavirus 2 (SARS CoV 2)(COVID-19)
- Varicella (chickenpox)
- Zoster (shingles)

The preventive care services listed above are recommendations of the Affordable Care Act (ACA) and are subject to change. They may not be right for every person. Ask your doctor what's right for you.

This sheet is not a contract or policy with Anthem Blue Cross and Blue Shield. If there is any difference between this sheet and the group policy, the group policy provisions will rule. Please see your combined evidence of coverage (EOC) and disclosure form or certificate for exclusions and limitations.

Child preventive care

Preventive physical exams, screenings, and tests:

- Anemia screening
- Anxiety, depression, and suicide risk screenings
- Autism Spectrum Disorder (ASD) screening
- Blood pressure screening
- Cervical dysplasia (abnormal cell growth on the cervix) screening
- Cholesterol and lipid (fat) levels screening
- Development and behavior screening
- Hearing screening up to 21 years
- Height, weight, and BMI measurements
- Hemoglobin or hematocrit (blood count) screening
- Hepatitis B screening
- HIV screening
- Lead testing
- Newborn screening
- Obesity: related screening and counseling
- Ocular prophylaxis for Gonococcal Ophthalmia Neonatorum: Preventive medication: newborns
- Oral (dental health) assessment, when done as part of a preventive care visit
- Sexually transmitted infections: related screening and counseling
- Skin cancer behavioral counseling for those ages 6 months to 24 years with fair skin
- Sudden cardiac arrest/death risk assessment
- Tobacco, alcohol, and drug use assessments
- Vision screening for those ages 6 months to 5 year⁹

Immunizations:

- Chickenpox
- Flu
- Haemophilus influenza type B (HIB)
- Hepatitis A and Hepatitis B
- Human papillomavirus (HPV)
- Meningitis
- Measles, mumps, and rubella (MMR)
- Pneumonia
- Polio
- Respiratory syncytial virus (RSV)
- Rotavirus
- Severe acute respiratory syndrome coronavirus 2 (SARS CoV 2)(COVID-19)
- Whooping cough

Pharmacy item coverage

For 100% coverage of your over-the-counter (OTC) drugs and other pharmacy items listed here, you must:

- Meet certain age requirements and other rules
- Receive and fill prescriptions from doctors, pharmacies, or other healthcare professionals in your plan's network
- Have prescriptions, including for OTC items

Women's preventive drugs and other pharmacy items (age appropriate):

- Breast cancer risk-reducing medications, such as tamoxifen, raloxifene, and aromatase inhibitors, that follow the U.S. Preventive Services Task Force criteria²
- Contraceptives, including generic prescription drugs and OTC items like female and male condoms and spermicides^{7,8}
- Folic acid for women who are planning to become pregnant
- Low-dose aspirin (81 mg) for pregnant women who have an increased risk of preeclampsia

Adult preventive drugs and other pharmacy items (age appropriate):

- Colonoscopy prep kit (generic or OTC only) when prescribed for preventive colon screening for members ages 45 to 75
- Generic low-to-moderate dose statins for members ages 40 to 75 who have one or more CVD risk factors (dyslipidemia, diabetes, hypertension, or smoking)
- Preexposure prophylaxis (PrEP) for the prevention of HIV
- Tobacco cessation products, including all FDA-approved brand-name and generic OTC and prescription products, for members ages 18 and older

Child preventive drugs and other pharmacy items (age appropriate):

- Dental fluoride varnish to prevent tooth decay in children ages 5 and younger
- Fluoride supplements for children starting at 6 months for children whose water supply is deficient in fluoride

If you'd like more help understanding your preventive care benefits, call the Member Services number on your health plan ID card. For a complete list of covered preventive drugs under the Affordable Care Act, view the Preventive ACA Drug List flyer, available at [anthem.com/pharmacyinformation](https://www.anthem.com/pharmacyinformation).

¹ The range of preventive care services covered at no cost share when provided by plan doctors is designed to meet state and federal requirements. The Department of Health and Human Services decided which services to include for full coverage based on U.S. Preventive Services Task Force A and B recommendations, the Advisory Committee on Immunization Practices (ACIP) of the Centers for Disease Control and Prevention (CDC), and certain guidelines for infants, children, adolescents, and women supported by Health Resources and Services Administration (HRSA) guidelines. You may have additional coverage under your insurance policy. To learn more about what your plan covers, see your certificate of coverage or call the Member Services number on your ID card.

² You may be required to receive preapproval for these services.

³ The Centers for Disease Control and Prevention (CDC)-recognized diabetes prevention programs are available for overweight or obese adults with abnormal blood glucose or who have abnormal CVD risk factors.

⁴ Breast pumps and supplies must be purchased from suppliers or retailers in your plan's network for 100% coverage. We recommend using plan durable medical equipment (DME) suppliers.

⁵ This benefit also applies to those younger than age 19.

⁶ You may pay a share of the cost for other prescription contraceptives, based on your drug benefits. Your cost share may be waived if your doctor decides that using the multisource brand or brand name is medically necessary.

⁷ Counseling services for breastfeeding (lactation) can be provided or supported by a doctor or facility in your plan's network, such as a pediatrician, OB-GYN, or family medicine doctor, and hospitals with no member cost share (deductible, copay, or coinsurance). Contact the provider to see if such services are available.

⁸ Check your medical policy for details.

⁹ Some plans cover additional vision services. Please see your contract or certificate of coverage for details.

Anthem Blue Cross and Blue Shield is the trade name of Anthem Health Plans of Virginia, Inc. Anthem Blue Cross and Blue Shield, and its affiliate HealthKeepers, Inc., serving all of Virginia except for the City of Fairfax, the Town of Vienna, and the area east of State Route 123, are independent licensees of the Blue Cross and Blue Shield Association.
