BOOKING A VACATION RENTAL

Home share and vacation rental markets have been around for decades, but are becoming increasingly popular mostly because of platforms like Airbnb and HomeAway. Having amenities such as a fully-equipped kitchen, laundry room, and more space and privacy than a hotel appeals to many types of travelers.

Plus, it’s become incredibly simple and cost-effective to book a vacation property online. Still, there are a few things you should do before you sign any rental agreements, including:

* Explore your options and know what to expect
* Read as many guest reviews as possible
* Ask questions and secure a thorough contract

If you have any questions about a vacation rental contract, we encourage you to contact your Plan Law Firm.

PERSONAL INJURY

Vacations can be unpredictable, but you can travel with extra peace of mind knowing you’re covered in case of a personal injury. Some attorneys may charge up to 40% of any award your suit receives, but with your Legal Resources plan, contingent fees on any damages or monetary benefits are capped at 25%. This can put thousands of dollars back in your pocket, which just may mean another vacation!

Every country has its own unique set of laws in place, so if traveling abroad is in your summer plans, be sure to do some research on your destination of choice. If you do run into any legal issues though, don’t worry. You can contact the certified paralegals from our award-winning Member Services department. With our nationwide network of over 13,000 attorneys, they will help get you navigate any matters that may arise.

Check out this link below for a list of some weird foreign laws you might not know about!

Weird Foreign Laws You’d Better Know!
Legal Resources was presented with two bronze Stevie Awards® at the 16th annual American Business Awards® banquet, held at the Marriott Marquis in New York City on Monday, June 11th. Legal Resources won a Bronze Stevie® for Customer Service Department of the Year in the Insurance category, and a second Bronze Stevie for Brand Experience of the Year – Business to Business.

Should You Buy Bitcoin?

Bitcoin is the world’s first digital payment network – a secure, global currency that can be sent from anywhere in the world, to anywhere in the world. Like gold, there’s a finite amount, which makes it valuable. But there is no official Bitcoin price. The price is set by whatever people are willing to pay. Bitcoin has become an interesting topic for investors.

Bitcoin has taken a tumble over the past year or so, but that’s not to say that a rebound is impossible. The cryptocurrency market is in its infancy, which means volatility is to be expected. So, should you invest? Maybe. It depends on your finances, and what kind of risk you’re willing to take.

As with any market, there are a lot of unknowns. You should be prepared to lose money, although the payout could be big if it actually performs as promised.

Member Testimonials

I was represented in a traffic case where all charges were dropped and the case was dismissed. I’m so glad I decided to keep Legal Resources for a second year, even though I did not use it in my first year of membership. You never know when circumstances will arise. I’m glad that I have this service available to me and my family.
