**LITTLE SCHOLARS**
We Inspire Confidence!

[www.littlescholarsllc.com](http://www.littlescholarsllc.com)
ABC Art
Now I know my ABGs, won’t you come and draw with me? Make the alphabet come to life through a wide variety of arts and crafts activities. Alphabet Art will expose your budding scholar to learning letter-sound relationships, letter formation, and sensory experiences. Get ready for an adventure into alphabet art!

Adventures at Sea
Ahoy, Mateys...Let’s set sail on an adventure into the world of mermaids and pirates. Treasure hunts, sandcastle building, and mystical ocean discoveries await our pirates and mermaids. This adventure will dive deep into the music, arts, language development, and social skills—just don’t tell the real pirates!

Art Factory
Our D-I-Y program is for all you artsy-craftsy kids who love to express yourselves with one-of-a-kind masterpieces like canvas art, bead making, and watercolors. Find your inner artist and keep your creativity sharp this school year as we design many mementos to be treasured.

Art Safari
We are going to take a safari around the world! Visit a new country each day and learn about animals native to that location with a sprinkle of literature, dab of games, and a whole lot of art. Grab your passport and discover the thrill of the hunt without leaving UR!

Bug Bonanza
Are you ready to bug out? Explore the world of bugs as you sing songs, create crafts, and complete math and reading activities focused on the lives of these creepy creatures. We’ll learn about ladybugs, bees, spiders, and many more as we have fun getting buggy!

Build and Design
In this camp, kids will learn the basics of architecture including drawing, designing, and creating structures and buildings. Design the home of your dreams, discover the inspiration for famous buildings and bridges, or plan a new roller coaster for your favorite theme park. Unleash your inner art-chitect with us this summer.

Builders
Builders will explore the world of interlocking bricks, recyclable goods, and many other interesting items through design challenges, fun, and games. Builders will dive into projects such as maze designs, simple machines creations, and one-of-a-kind masterpieces.

Builders in Training
Calling all inventors, builders, and designers; come and build some awesome creations with us! We will create our own designs and make structures using Legos, recyclable materials, and many other interesting items. Skills necessary: none! Skills gained: communication, problem solving, reasoning, developing creativity, and teamwork.

Extreme Animals
Who is the most dangerous animal on earth? What is the weirdest animal adaptation? What creature is resistant to venom? We’ll find out all of this and more as we learn about the world’s most extreme animals. Students will build their science and language skills and they debate and conduct experiments regarding these crazy creatures.

Fitness Fanatics
This is not your typical sports class...this is for Fitness Fanatics. We will dive into games such Ultimate Frisbee, Land Polo, and Spike Ball. Experience new sports, teach your friends a cool new game, learn a few new tricks, and have fun!

Green Thumb Club
Catch an insect, grow a terrarium, and save the earth... all while learning about nature and the world around us through exciting expeditions, science, and environmental exploration. Our Green Thumb Club will ignite your child’s passion for nature, recycling, and learning about the earth through educational activities and science investigations. It’s time to join the Green Thumb Club!

Journey through the Rainforest
Did you know 6% of the earth is covered by rainforests? Slither with us through this diverse ecosystem as we explore the animals, creatures, and unique environment of the rainforest! Conduct experiments and create crafts focused on life in and below the canopy.

Jumpin’ Beans
Hop, Run and Skip to Jumping Beans! S-T-R-E-T-C-H your muscles and get your wiggles out all while learning about a new sport each week. Jumping Beans is great for developing gross motor and fine motor skills in a structured format that builds coordination, balance and confidence.

Mystical Creature Adventures
Lockness Monster, Big Foot, Greek Gods and mystical creatures...did we get your attention? We are going to fill your days with discoveries about these legendary creatures. Not only will you have an amazing time, but you will broaden your creative mind and gain critical reasoning skills. This is one amazing adventure you will not want to miss!

Nature Makers
Ignite your passion for nature and wildlife as you learn about this magnificent planet that we call home! Build, discover, and explore with science experiments and hands-on creative activities using materials from the world around us all in the same name of nature.

Once Upon a Time
Do you have what it takes to save the world? Do you have the sparkle to rule the world? Train to be the superhero or princess you were meant to be! Save the world from evil-doers everywhere in this interactive and high energy camp. The training combines co-operative games, team building activities, literature, educational enrichment activities, and craft projects to ensure your powers will be supreme.

Science Palooza
Come discover, experiment, and create as we learn about the colliding worlds of art and science in this STEAM-based class. We will create simple machines, learn about crystals and minerals, and dabble in the world of robots. Put on your lab coat and grab your art supplies because this STEAM class will rock your world.

Scientist in Training
Take a dash of engineering and a sprinkle of earth science, toss it together with some fun and games, and you have this STEAM-based class. Scientists will explore the different worlds of science through weekly take home creations such as pizza gardens and rockets. Join us for this exciting journey into the world of science.

Ultimate Games
Are games of skill and competitions your jam? Do you like solving STEAM challenges? Grab your friends and hustle to win! We will dive into individual competitions and team-based challenges for days filled with fun and games. Experience new sports, teach your friends a cool new game, learn a few new tricks, and of course, have fun!

Upcycled Art
Up Cycle ‘trash’ and recyclable materials into creative creations such as murals, decorative containers, and wearable art. Let your creativity run wild, dream big, and help the environment along with way as you stretch your artsy side.

Whiz Kids
Join us on a science discovery mission! We will explore the world of chemistry, engineering, and earth science through experiments and encounters. This program will enhance STEM education philosophies with a big punch of fun. Come join us for this exciting journey into the world of science!
