

FRINGE BENEFITS

(Full-Time Tenured and Tenure-Track Faculty, Continuing Academic Appointments, and Visiting Appointments)

The descriptions below are brief, and intended to give an overview of the University of Richmond's benefit plans. More complete descriptions appear in the links indicated below in each section and the Faculty Handbook (<http://facultyhandbook.richmond.edu>). Specific questions may be directed to Human Resources.

Retirement Plan - The University contributes the equivalent of 5% of an eligible employee's base salary to the retirement fund of his/her choice on a monthly basis. There is a one-year waiting period before the University will contribute to the retirement plan. **If the employee has been employed at an institution of higher education for the full academic year immediately preceding appointment to the University, the 12-month eligibility period will be waived.** TIAA is the sole record keeper for the University's retirement plan. In addition to the University's 5% basic contribution, if the employee wishes to contribute to the plan (which we strongly encourage), he/she may do so on a tax-deferred basis in increments of whole percentages of the employee's base salary. The University will match 100% of every 1% of base salary the employee contributes to the Plan up to a maximum of 5% of base salary.

All employees are eligible to make salary reduction contributions to the retirement plan as soon as they become an employee and complete a salary reduction agreement. The Plan Administrator must receive your signed salary reduction agreement by the 15th of the month in order for the pre- and/or post-tax Employee Deferral contributions to be effective the following payday. Employees must work 1,000 hours during a 12-month period and complete enrollment materials before they are eligible to participate in the University contribution portion of the retirement plan. Participants are at all times 100% vested in salary reduction contributions and University contributions. Summary Plan Description and the Salary Reduction Agreement may be found online at <http://hr.richmond.edu/benefits/retirement/plan.html>. If you are paid on a monthly basis, Human Resources must receive your signed salary reduction agreement by the 15th of the month in order for the Deferral contributions to be effective for the next payday. If your salary reduction agreement is received after the 15th of the month, the salary reduction agreement will be effective for the payday following the next payday.

It is the employee's responsibility to complete the Benefit Enrollment/Change Form for one of the University's health insurance plans or the waiver no later than 31 calendar days after their employment start date. If the employee fails to comply with this requirement, the University will understand this to mean the employee is declining medical insurance coverage and may not enroll or waive until Open Enrollment unless there is an eligible status change.
